

## JILL P. SHEPARD

Burlington, VT • [jillpshepard@gmail.com](mailto:jillpshepard@gmail.com) • 716.430.8834

LinkedIn: [linkedin.com/in/jillpshepard](https://www.linkedin.com/in/jillpshepard) • Portfolio: [jgoodwyn.com](http://jgoodwyn.com)

**Technical lead** with 10+ years of experience building analytics platforms, internal tools, and data products across SaaS, government, education, and manufacturing environments. Combines product research, UX design, software development, and analytics engineering expertise to translate complex operational needs into scalable software solutions.

---

### PROFESSIONAL EXPERIENCE

**Constellation, Inc.** – Remote | Oct 2025 – Present

**Senior Data Analyst & Team Lead (Active Top Secret Clearance)**

- Partner with CBP stakeholders to translate mission requirements into analytics products, reporting systems, and decision-support tools.
- Define data models, reporting logic, and success criteria for enterprise reporting solutions supporting operational and compliance objectives.
- Lead analytics initiatives, mentor team members, and facilitate technical workshops that drive adoption of reporting solutions and data best practices.

**eLumen** – Remote | May 2025 – Oct 2025

**Senior Data Scientist (Contractor)**

- Designed Tableau-based analytics products supporting higher education assessment programs.
- Partnered with consultants and faculty stakeholders to improve reporting workflows and self-service access to data.

**Kangarootime** – Buffalo, NY | Jun 2022 – May 2025

**Senior Data Scientist & BI Team Lead**

- Led the BI team and owned analytics platforms and customer-facing reporting products supporting finance, sales, and customer operations.
- Partnered with stakeholders to identify operational pain points and translate requirements into scalable software and data solutions.
- Led cross-functional initiatives that automated critical workflows and enabled near real-time visibility into business performance.

**IBM** – Buffalo, NY & Dallas, TX | Nov 2021 – May 2022

**Senior Data Scientist & Technical Lead**

- Designed and delivered production-scale data and analytics infrastructure supporting manufacturing operations for Toyota Motor North America.
- Collaborated with engineers, business stakeholders, and technical teams to define requirements, prioritize development efforts, and deploy production solutions.
- Mentored data science apprentices and contributed to technical skill development and engineering best practices.

**Anthology, Inc** – Buffalo, NY | Nov 2016 – Nov 2021

**Data Scientist, UX Designer, & Product Researcher**

- Led user research and product discovery initiatives, partnering with engineering, design, and business stakeholders to inform strategy, prioritize roadmap investments, and define product requirements.
- Built analytics products and reporting systems supporting executive decision-making and revenue forecasting.
- Developed self-service tools that improved accessibility and adoption across technical and non-technical users.

**IBM** – Buffalo, NY & Washington, D.C. | Sep 2013 – Nov 2016

**Business Analyst & Junior Data Scientist**

- Delivered analytics models, dashboards, and technical consulting across federal, healthcare, and manufacturing clients using SQL, R, and SPSS.
